

# Creation or Evolution

**If we were to remove the Bible from our minds  
and remove everything  
we have been taught about God from our minds.**

**We would be unable to know  
About the God we worship.**

**The God we worship is a revealed God.**

**Paul in Romans 1:20; says**

**“For since the creation of the world His invisible  
attributes, His eternal power and divine nature, have  
been clearly seen, being understood through what  
has been made, so that they are without excuse.”**

That would seem to imply that when we look at The Universe, The Stars, The Planets They reveal God.

This is **not** what Paul is saying he is saying what he says is against a background of **revealed knowledge** to both Jew and Gentile

He is actually saying that **the Gentiles knew about God through revelation by God** and that when they look at all the worlds He made, they are **constantly reminded** of His power and Majesty.

**Rom 1:21; makes this clear:-**

**“For even though they knew God, they did not honour Him as God or give thanks, but they became futile in their speculations, and their foolish heart was darkened.”**

# How do we know anything exist needs to begin with the question **am I real** **René Descartes** said "**I think, therefore I am.**"

IF I CAN  
BE SURE  
THAT I THINK

WHEN WE DOUBT

WE CANNOT DOUBT

THAT WE DOUBT

THEN I CAN  
BE SURE  
THAT I EXIST

WHEN WE DOUBT

WE CANNOT DOUBT

THAT WE DOUBT

WHEN WE DOUBT

WE CANNOT DOUBT

THAT WE DOUBT

He is saying we can know that **SOMETHING exists** because of the evidence that **we exist**  
**But where did WE come from?**

Did we come from **NOTHING** or **SOMETHING**?  
Are we a product of **MATTER** or **INTELLIGENCE**?  
A product of **CHANCE** or **DESIGN**

**IN THE BEGINNING WHAT?**

**EITHER**

**MATTER OR INTELLIGENCE**

**First Problem You cannot get  
something from Nothing !**

To suppose that in the complete absence  
of Cause and Will  
**NOTHING** became **SOMETHING**  
seems too **PREPOSTEROUS** to be argued.  
And even an **Atheist** will agree to that  
**We ASSUME SOMETHING ALWAYS** existed

The **QUESTION** is has **MATTER**  
**ALWAYS EXISTED?** and has it been  
transformed into its present state  
by the **PROCESS** of Darwinian organic evolution?

Or is that **WHICH IS ETERNAL**  
a **MIND**, an **INTELLIGENCE** which  
we call **GOD**, who brought **ALL THINGS**  
into being by His creative **POWER?**

In the so-called “**BIG BANG**” or “**EXPLODING UNIVERSE THEORY**”, unbelieving scientists have come as close as they are likely to get, to the concept that the **UNIVERSE** of **TIME – ENERGY – MOTION – SPACE – MATTER** was created out of nothing.

They **BELIEVE** “that out of a **COSMIC EGG** even **SMALLER** than the **FULL STOP** at the end of this sentence.” ←

# This pinpoint of NOTHINGNESS with infinite potential

In **LESS** than **A MILLISECOND** began to **expand** to **15 billion-plus** light-years in **at LEAST FOUR DIMENSIONAL time-space coordinates.**”

The **whole universe**  
came in to being at **some point in time**,  
measured backward by the speed of starlight  
to about **13.8 billion years ago**.

The **primal matter** is **supposed** to have been  
something that became **hydrogen**, possibly  
with some **helium** from the beginning.

And from that **HYDROGEN**  
(and a relatively small amount of **helium**)  
**ALL the GALAXIES** with their **STARS**,  
**PLANETS, COMETS AND ASTEROIDS**  
were **CREATED**.

# The Faith of an Evolutionist

What many fail to understand about the **theory of evolution**, spoken and written about in such an authoritative manner by so many.

Is that it is **NOT scientific FACT**  
**BUT A RELIGIOUS FAITH,**  
a many and varied system of **BELIEF**  
about **THE ORIGINS** of the **UNIVERSE.**

**This FAITH CHANGES** from year to year  
on a regular basis,  
as new ideas are proposed  
and old ideas are rejected.

**Evolution** as taught :-

**“SOMETHING FROM NOTHING”**

and **“SIMPLE TO THE COMPLEX”** goes  
against every known accepted scientific law

**You cannot get  
Something from Nothing.**

**IN THE BEGINNING WHAT?**

**EITHER**

**MATTER OR INTELLIGENCE**

**Science says by all the known laws MATTER has  
a BEGINNING and an END (Useful to useless)**

**FIRST & SECOND LAW OF THERMODYNAMICS**

**THEREFORE MATTER CANNOT BE  
THAT WHICH HAS ALWAYS EXISTED!**

Christians believe that  
there is **Intelligence behind the Universe!**  
There is too much evidence of design  
to be caused by chance.

**Genesis 1:1-3;** “In the beginning God created the heavens and the earth. The earth was without form, and void; and darkness was on the face of the deep. And the Spirit of God was hovering over the face of the waters. Then God said, “Let there be light”; and there was light.”

**Psalms 19:1;** “The heavens declare the glory of God; And the firmament shows His handiwork.”

**Psalms 8:3;** “When I consider Your heavens, the work of Your fingers, The moon and the stars, which You have ordained.”

**Many people assume that science has a clear cut picture of what happened at the beginning of the universe**

**That is not true. Many people at the cutting edge of Quantum Physics, Chemistry, Biology, Mathematics, etc are discussing among themselves the pro's and con's of the latest ideas.**

**“There is a lot of **debate** about the interpretation of Quantum mechanics. There are **14-20 different interpretations”**  
Vasavada, Kashyap V**

**“How do you decide about ontological status of an object i.e. if it really exists or not? For everyday classical objects like a table it is fairly simple, mainly by consensus.”**

**“Everybody I know agrees that it is a table, although our senses independently observe it and there is no certain way to compare what each of us sees.”**

**“It was here yesterday and unless there is a fire, we are fairly certain it will be here tomorrow!  
In addition to seeing, we can touch it!”**

**“For something which you cannot see or feel with your senses, it becomes a matter of imagination in your mind. Thus, it is a matter of faith and hence leads to long unresolved debates!”**

On YouTube there are many people who are willing to **criticize** people **who believe in God and creation**

One of these quite strong critics is one who posts under the name CloudCuckooCountry.

He argues strongly **against creationists** who he says teach:-

**"god created the world because evolution doesn't exist."**

He then goes on to explain how **he DESTROYS the creationists argument** making the statement .

**"the existence of evolution has been proven beyond any reasonable doubt."**

He begins his argument by saying

“Here is the model **we start of with a biological population** made up of many different individuals.”

### Variation

- Larger stronger beak
- Larger body mass

- Smaller sharper beak
- Smaller body mass

Can you see anything wrong with this argument.

**He is starting off with life  
without explaining where life came from!**

He is explaining **variation within a species**  
Which **God teaches and Christians believe**  
right from the beginning of the Bible  
in Genesis 1:11-26;

11 "Let the earth produce vegetation:  
seed-bearing **plants**, and fruit **trees** on earth,  
bearing fruit with their seed inside,  
each **corresponding to its own species.**"

21 "God created great **sea-monsters and all the**  
**creatures** that glide and teem in the waters in their  
**own species**, and winged **birds in their own species.**"

This is not **spontaneous generation**  
of something from nothing,  
**life from no life** as evolutionists claim!

**Everybody** believes in some form  
**Of Evolution** from Latin – “to unroll, unfold,  
change” more common usage:

The **small** or **micro evolutionary** changes occur  
by recombining existing genetic material  
within the group, or as we might call it  
**variation within a species.**

As **Gregor Mendel** observed with his  
**breeding studies** on peas in the mid 1800's,  
there are **natural limits to genetic change.**

### **Mendel's Genetic Law.**

**A population of organisms can vary only so much.**

**Do Changes  
Within Species  
Prove  
Evolution?**

**What about  
Genetic  
Mutations?**

A mule is a hybrid, and can be produced  
only when a horse and a donkey breed together.

**Microevolution** refers to varieties within a given type. Change happens within a group, but **the descendant is clearly of the same type as the ancestor.**

This might better be called **variation, or adaptation,** but the changes are **"horizontal"** in effect, not **"vertical."**

Such changes might be accomplished by **"natural selection,"** in which a trait within the present variety is selected as the best for a given set of conditions, or accomplished by **"artificial selection,"**

Such as when dog breeders produce a new breed of dog.

# Microevolution

# Macroevolution

(the evolution of one species out of another species, and thus from a one-celled plant or animal to man through billions of transitional intermediates.)

**Macroevolution** refers to major evolutionary changes over time, the origin of new types of organisms from previously existing, but different, ancestral types.

Examples of this would be **fish** descending from **an invertebrate animal**, or **whales** descending from **a land mammal**.

These animals supposed to be produced from one another are seen to be an imaginary connection changing all the time.

**Darwin's "tree of life",** which shows how species are related through **evolutionary** history, **is wrong** and **needs to be replaced,** according to **leading scientists.**

# Whale Evolution: A Study of Deception

“For instance, modern whales are the descendants of four-legged land animals that are also the ancestors of horses and cows.

As you can see in Figure 10-4, fossil intermediates between modern whales and their 60-million-year-old ancestor reveal a history of slow transformation.”

**Biology: Visualizing Life,**  
Holt, Rinehart & Winston,  
1998, p. 177.

These pictures are drawn by an artist.  
**It is not what was found.**

# Macro Evolution

**“the central tenet of modern biology is that all species, including humans, evolved from one simple life form.**

*Susan Watt, BBC Newsnight, 17/3/2000*

**In nature we have never seen  
a single exception to  
the Law of Life produces Life.**

**To get a cow, you must first have a living thing.  
But, that living thing cannot be a horse,  
a donkey, or a whale. It must be a cow.  
To get an Oak, you must have a living Acorn.  
To get a lion, you must have a living lion.**

# THE MOST REASONABLE CAUSE FOR ORGANIZATION?

**‘Natural selection, the blind, unconscious, automatic process which Darwin discovered, and which we now KNOW is the explanation for the existence and apparently purposeful form of all life, has no purpose in mind**

*The Blind Watchmaker: Why the Evidence of Evolution Reveals a Universe Without Design* (1996)  
by Richard Dawkins (Norton Publishing).

**It has no mind  
It does not plan for the future  
it is the blind watchmaker.’**

**The law of cause and effect states that every material effect must have an adequate cause that existed before the effect.**

**Mount Rushmore?  
Intelligent design, or “chance?”**

CloudCuckooCountry in his video goes on to use the **DNA and RNA genetic strands** to argue that all various species could come from **the genetic code** because **the code carries all the blueprint** for different forms of life.

He never questions where the **code** comes from?  
**Who wrote the coded information?**

So again he is telling us creationists are wrong  
but he is **arguing from a false position**  
because he still has not answered the question  
**how can you get something from nothing.**

## Evolutionist's say

“Four and a half billion years ago the young planet Earth... was almost completely engulfed by the shallow primordial seas. Powerful winds gathered random molecules from the atmosphere.

Some were deposited in the seas.

Tides and currents **swept the molecules** together.

And somewhere in this ancient ocean  
**the MIRACLE of life began**

The **first organized form** of primitive life was a **tiny protozoan** [a **one-celled animal**]. Millions of **protozoa** populated the ancient seas. **These early organisms were COMPLETELY SELF-SUFFICIENT** in their sea-water world.

**They moved about their aquatic environment  
feeding on bacteria and other organisms...**

**From these one-celled organisms  
evolved all life on earth”**

(from the Emmy award winning PBS NOVA film **The Miracle of Life**; quoted in Hanegraaff, 1998, p. 70, emphasis mine).

**QUESTION! If They were the FIRST  
and COMPLETELY SELF-SUFFICIENT  
WHY did they need to FEED on something?**

**WHERE did  
the bacteria and other organisms...  
They were FEEDING on come from?**

# The Faith of an Evolutionist

“There are **only two possibilities** as to how life arose; **one is spontaneous generation arising to evolution, the other is a supernatural creative act of God, there is no third possibility. Spontaneous generation that life arose from non-living matter was scientifically disproved** Many years ago by Louis Pasteur and others.

That leaves us with only one possible conclusion, that life arose as a creative act of God. **I will not accept that philosophically because I do not want to believe in God, therefore I choose to believe in that which I know is scientifically impossible”**

Professor Emeritus of Biology,

Footprints on Greek island may belong to a human ancestor

G.D. Gierlinski et al

Scientist

Are these footprints  
of the first hominin  
to reach Europe?

## 4th Sept 2017 New Scientist By Colin Barras **Controversial footprints suggest we evolved in Europe not Africa**

A set of ancient **footprints** has been found on a Greek island. They are extremely old – 5.7 million years – yet they seem to have been made by one of our hominin ancestors.

At that time, hominin's are **thought** to have been confined to Africa. The **discovery supports the controversial suggestion** that they may also have been living in eastern Europe.

“surprisingly, fossil and geological **evidence indicates** that the footprints are **5.7 million years old**. That means they predate the period during which hominin's are **conventionally believed to have left Africa by about 4 million years.**”

David Begun at the University of Toronto, Canada, **wonders about this point too.** “It's theoretically possible that *Ardipithecus* could use its muscles to squeeze its big toe in line with the rest of its foot and provide a more modern-looking footprint,” he says.

Charles Darwin, in 1871, suggested life began in 'some warm little pond with all sorts of ammonia and phosphoric salts, light, heat, electricity etcetera present.'

McMaster University and the Max Planck Institute have now proved the theory. The leading rival theory holds that life began in volcanic vents in ocean floors.

<http://www.dailymail.co.uk/sciencetech/article-4941528/Life-Earth-began-meteorites-hit-Earth.html>

It is now thought life on Earth began between 4.5 and 3.7 billion years ago when small meteorites - under eight inches wide - hit the planet, forming warm little ponds. This image shows the influences acting on chemicals in these ponds during seasonal dry and wet phases

# What about Buddhism and Hindu thought?

A biological or sensual experience comes from the brain; no brain no biological senses and hence no biological conscious experience in spite of **the eternal universal consciousness** [God] prevailing in the universe.

**As far as we know, God and soul do not have their own brains** (as we do), then they cannot have conscious experiences (as trichromats experience redness when they look at a ripe tomato).

$V=0$ ,  $R=0$  represent zero motion (deadness, no life) and zero domain (radius) of awareness, hence unconsciousness or death just like at the centre of a black hole crunched by the attractive pull of gravity.

$V=C$ ,  $R\sim\text{infinity}$  **represent spontaneously expanding (Brahma)**, no gravity or attachment, **fully enlightened** (zero mass or ego), fully dilated time (eternal), fully dilated space (omnipresent).

# What about Buddhism and Hindu thought?

**We all know that the first cell took billions of years to evolve into human beings.** Evolution which started billions of years ago should naturally continue after humans. He says the next level of evolution in humans is the evolution of consciousness.

In his paper (included in this article), he proves that the solar systems have got all the characteristics of a living organism. Manoj sir with his colleagues (Department of Computer Science, CUSAT)

According to his research paper, **the first cell was formed from lunar dust.** The sun, the moon, the 9 planets, 27 stars, 12 rashis, the water, the air and the atmosphere **all have played their crucial role in the formation of the first cell.**

# What about Buddhism and Hindu thought?

The professor says that even Charles Darwin was not aware of this phenomenon.

Darwin himself said in his book, “The origin of species” that the formation of the first cell was accidental.

The term “accidental” was used because the real reasons were unknown to him. According to Charles Darwin, evolution is driven by 'natural selection' and 'mutation.'

**Vimal:** Do you mean that **all natural laws (physical, biological and other laws) are self-existent or inherent in Nature, which have nothing to do with God?**

# ***PEOPLE HAVE DIFFERENT FAITHS***

**a. THEIST-** A person who believes in God and possibly the full inspiration of the Bible,

Such a person could accept the Genesis account as being both Literal and Historic.

**b. ATHEIST** - Name comes from the "**Greek**" meaning "**without God**" Eph 2:12; the atheist does not believe in the existence of God and would claim that the creation account is a Jewish myth.

**Most atheist's would claim to accept some form of evolution.**

**c. AGNOSTIC** :-Title comes from the "**Greek**" meaning "**without knowledge**" from **Latin** it would mean "**ignoramus**"

They would claim to be open minded on the issue of the beginning of the universe and the existence of God. **They would admit that there are things they do not know**

**d. THEISTIC EVOLUTIONIST** :-

This is a person who believes that God created the universe by means of the evolutionary process and would claim that Genesis chapter 1 and also possibly 2-11; are **not** to be taken **literally**, but **figuratively**. **He generally attempts to reconcile the genesis account of creation to the theory of evolution.**

**We cannot conceive, for example, of a watch "just happening", with its hundreds of parts working together in perfect precision. There had to be a maker..**

**Both creation and evolution require faith.**

**The Bible says Hebrews 3:4; :-  
“Every house is built  
by someone, of course; but  
God built everything that exists.”**

**The Christian believes Hebrews 11:3; :-  
"By faith we understand that the entire universe  
was formed at God's command, that what we now  
see did not come from anything that can be seen..”**

**The Christian has one thing to believe:-
